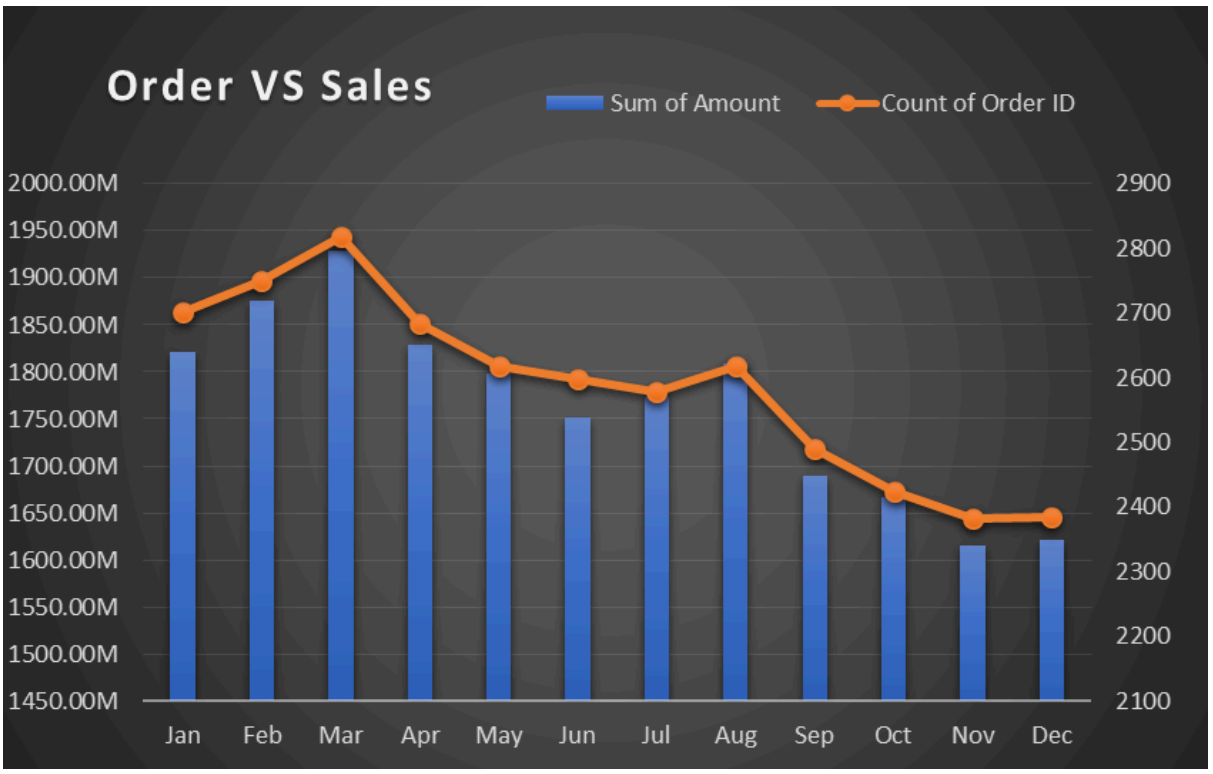
- With **31,047 orders** and **3,852 customers**, the business shows a solid order volume but suggests potential to improve customer acquisition or repeat purchases.

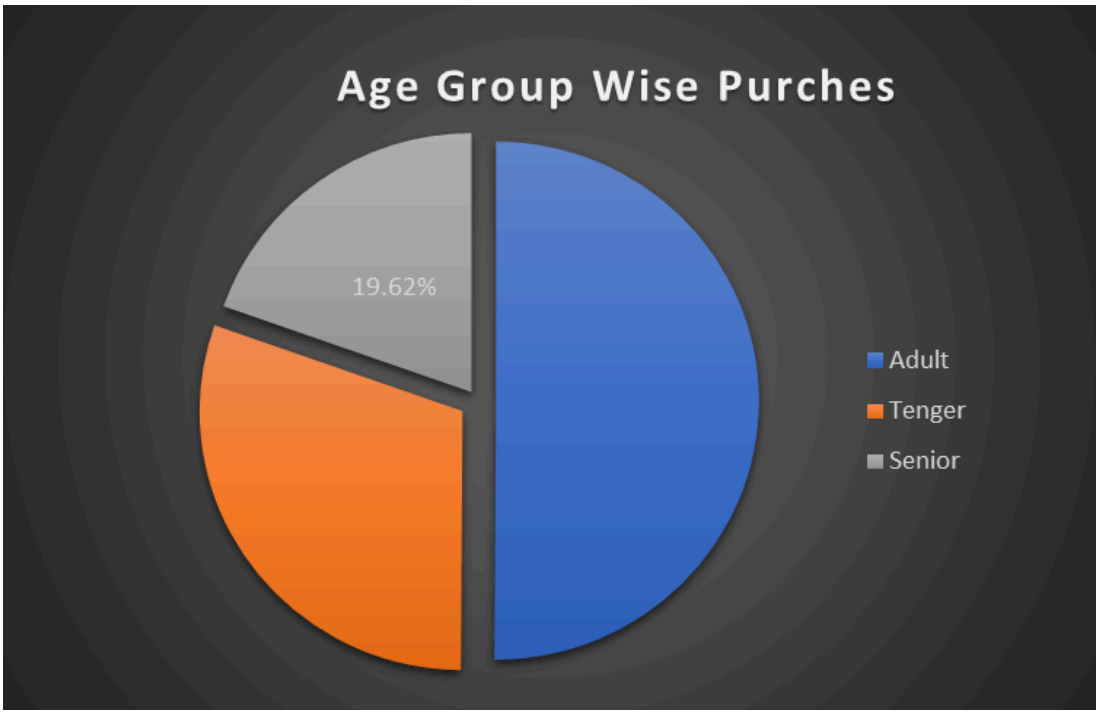
📈 Sales Trends (Order vs Sales)

- Sales peak occurs around **Feb–Mar**, followed by a gradual decline toward year-end.
- This indicates **seasonality**, suggesting demand is stronger in early months.
- 👉 *Action:* Plan promotions or campaigns in low-performing months (Oct–Dec) to stabilize revenue.



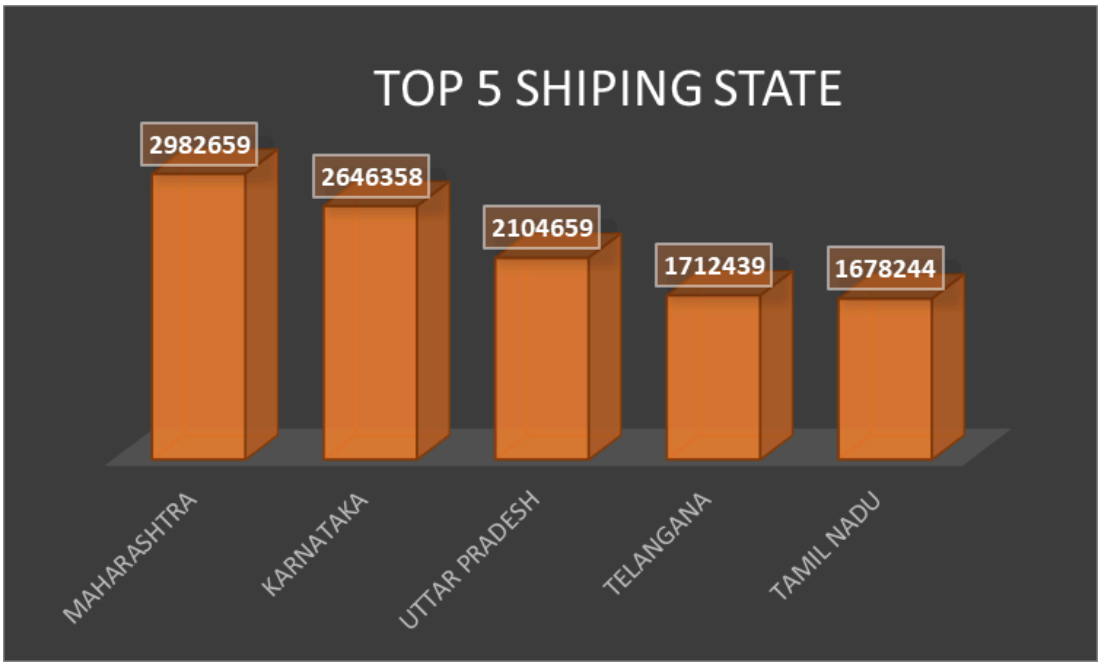
👥 Customer Demographics

- **Male customers contribute significantly more sales than females.**
- The **Adult age group dominates purchases**, while seniors contribute the least.
- 👉 *Action:*
  - Target **female customers** with tailored campaigns.
  - Introduce products or offers appealing to **senior segments**.



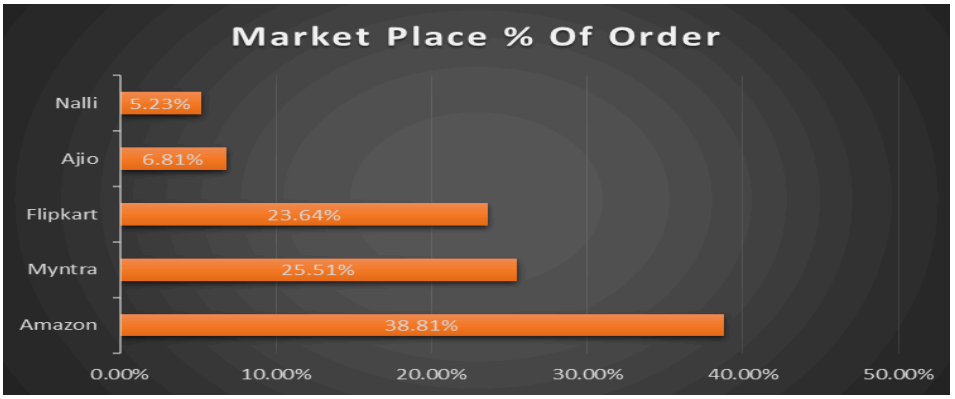
🚚 Geographical Insights (Top Shipping States)

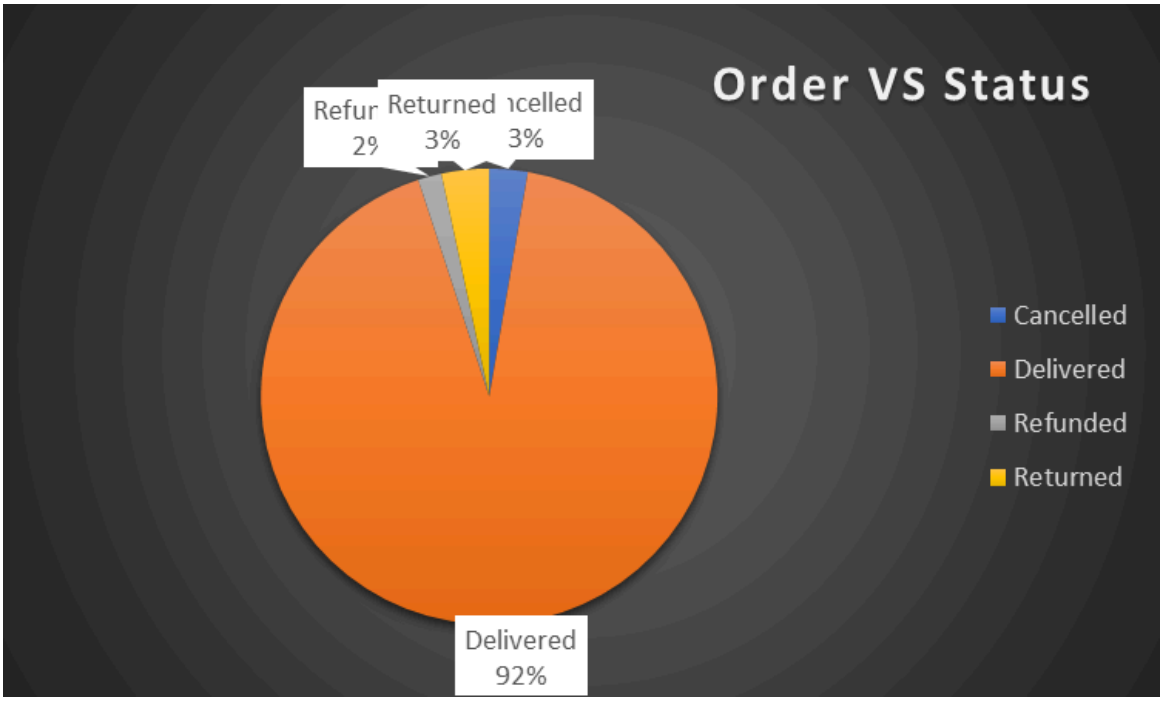
- **Maharashtra** leads in shipments, followed by **Karnataka** and **Uttar Pradesh**.
- Southern and western regions are strong markets.
- 👉 *Action:*
    - Strengthen logistics and inventory in top-performing states.
    - Expand marketing in underperforming regions like northern states.



🛒 Marketplace Performance

- **Amazon dominates with ~38.8% of orders**, followed by **Myntra (25.5%)** and **Flipkart (23.6%)**.
- Smaller platforms contribute a minimal share.
- 👉 *Action:*
    - Focus on **Amazon as the primary channel**.
    - Optimize listings and ads on Myntra & Flipkart to grow share.
    - Evaluate the ROI of smaller marketplaces.



📦 Order Status


- **92% of orders are successfully delivered**, showing strong fulfillment efficiency.
- Minimal cancellations, refunds, and returns.
- 👉 *Action:* Maintain current logistics quality while analyzing reasons behind returns/refunds to further reduce them.
